

## SUMMARY WARRANTY PROVISIONS HARD SET ADHESIVE INSTALL ONLY

---

### 25 Year Limited (Lifetime) Structural Warranty

ULTIMO flooring is provided with a 25 Year Limited Lifetime Structural Warranty to cover the performance and appearance of the plank from delamination, splitting and geometry that would affect the planks assembly and in-service performance. The planks must be inspected prior to installation; planks deemed not fit for service should not be installed and will not be covered by warranty provisions. An allowance of approximately 5 -10% should be added to your install requirements to cover cutting waste and plank selection.

Due to the variable climate conditions within Australia and New Zealand planks may display slight bow when removed from the cartons this is not considered a structural defect unless the planks cannot be assembled after an adequate period of acclimatisation. Note; planks should not be unpacked overnight and or left loose prior to install.

**Hard -Set Adhesive is required for all installation outcomes.** Please refer install guidelines. Please contact [www.preferencefloors.com.au](http://www.preferencefloors.com.au) to obtain an up to date set of instructions.

Planks required for the expected install area should be unpacked approximately 30 - 60 mins prior to actual placement to allow for room acclimatisation. It is vital that the room temperature is kept relatively constant during the installation. You should avoid installing during extreme temperature conditions that are either excessively high (> 33c) or excessively low (<10c). If rooms are excessively exposed to external direct heat and sunlight, openings should be covered by blinds or suitable window and door treatments to minimise direct heat exposure. Maintaining a constant temperature and moderate humidity within your home is beneficial to the floor service life and your general well-being.

Warranty provisions are extended to the individual or company that is nominated as the original point of purchase and or initial occupant at the installation site. A copy of the original receipt will be required to establish purchase history. Warranties are not transferrable.

### 20 Year Limited Lifetime Residential Wear Warranty

ULTIMO flooring provides for a 20 Year Limited Lifetime Residential Wear Warranty that guarantees that the planks will not wear through to the underlying surface, warp, split or delaminate. This in course implies that the appropriate conditions for use are in line with the provisions set out in our Installation and Care and Maintenance instructions. Please make sure you understand the guidelines before commencing any cleaning and maintenance schedules. This information should also be passed onto third party contractors if you are not responsible for cleaning the floor. For areas less than 10% of the surface area that could be related to high traffic wear or incidental damage will not be covered by the warranty provisions. Instructions and guidelines for keeping your floor in optimum appearance can be obtained directly from our web portal. [www.preferencefloors.com.au](http://www.preferencefloors.com.au) This information should be passed onto third party contractors if you are not responsible for cleaning the floor.

### 5 Year Limited Commercial Wear Warranty **4.5/mm Product Only.**

ULTIMO Vinyl Plank Flooring provides for a 5 Year Limited Commercial Wear Warranty that guarantees that the finish coating will not wear through to the underlying surface, warp, split or delaminate. This in course implies that the appropriate conditions for use are in line with the provisions set out in our Installation and Care and Maintenance instructions. Areas less than 10% of the surface area that could be related to high traffic wear or incidental damage will not be covered by the warranty provisions. Instructions and guidelines for keeping the floor in optimum appearance can be obtained directly from your point of purchase or obtained from our web portal. [www.preferencefloors.com.au](http://www.preferencefloors.com.au)

**The 4.5mm product is not suitable for use under heavy static loads, filling systems or associated fixed equipment or rolling loads.**

### Australian Consumer Law Update 2012

ULTIMO Luxury Vinyl Planks are provided with limited performance warranties that cannot be excluded under Australian Consumer Law. Entitlements include a replacement or a refund for what is termed as a major failure and for agreed reasonably assessed associated costs. Entitlements also allow for the goods to be replaced if the product fails to meet an agreed acceptable quality and that quality does not constitute a major failure.

### What is an acceptable quality and use guidelines?

ULTIMO Luxury Vinyl Planks are designed to be installed for interior use only. They are not designed for external use. The product will not be covered by warranty provisions if used in an outdoor area. The product should be installed as per the install guidelines, special attention should be directed to plank inspection prior to install. Slab or substrate should be inspected and suitable for flat and dry installation. For heating and cooling, all mechanical systems must be compatible and comply with environmental performance attributes for products such as Ultimo Vinyl Plank Flooring. Internal temperature and humidity controls need to be aligned to match performance guidelines as stated by the heating system guidelines. Evaporative cooling systems must be installed with adequate ventilation and operation should be as per system recommendations. Poor use of evaporative cooling systems may create very high internal humidity and residue moisture within the home. Plank deformity may result as a direct result of high or low internal humidity.

## What determines a Major Failure?

Ultimo Vinyl Plank Flooring may display characteristics such as batch and slight colour variation, blemishes and surface indentations are normal and will not be considered as a Major Failure. This will also extend to slight coating variations for gloss levels and sheen viewed in an indirect light environment (curtains / shades closed). Seasonal change resulting in slight gapping, consistently over many planks along with incidental movement of planks would be considered normal as a part of the building environment and would not constitute a Major Failure.

Once planks have been installed it is considered that site matters such as substrate suitability and the product have been accepted by the installer / contractor. The product manufacturer warranties do not cover installation and site suitability. Once installed the product is deemed to be suitable for use and plank defects that should have been removed or assessed prior to installation will not be covered by warranty provisions. This will be a matter between client and contractor. We would recommend that you always ask for installation or contractor warranties to cover workmanship as these are not covered by the Ultimo Vinyl Plank Flooring manufacturing warranties. Structural plank delamination or surface coating deformities from normal in-service use may require a service inspection. If this arises immediate contact with your initial point of purchase is recommended.

The limited warranties are subject to the following;

- The warranty provisions will not cover installations practices not consistent with manufacturer's install guidelines. Floor care and maintenance must be conducted in line with our product guidelines to avoid coating and product damage. Warranty provisions will not cover a poorly maintained floor.
- For all Hard-Set adhesion applications please review and follow the adhesive manufacturers strict use guidelines this should ensure a quality install.
- To avoid excessive surface heat & UV damage to your floor, window & door coverings or sun blinds must be used.
- Incidental scratching, chipping, indentations and fading from extreme artificial and external UV light sources would be considered site related and therefore not covered by warranty provisions. Please cover flooring with adequate protection if construction is still occurring at the site to avoid any incidental contractor damage.
- In the circumstances such as site flooding or the flooring being subject to water submersion for an extended period of time the flooring will not be covered by warranty and any subsequent use of the damaged material should be reviewed by your building insurer.
- Cover flooring with adequate cover sheets before sanding or painting to stop fine dust from settling into the edges of the flooring. It may prove difficult to remove after installation, ideally painting should be finished prior to install.
- Moisture ingress or leakage from internal or external sources that results in plank deformity is not covered by warranty provisions.
- Accidental damage during installation or throughout the products lifecycle will not be covered by warranty provisions.
- Planks that have been installed that may display imperfections outside of natural grading specifications would be deemed as acceptable and suitable for installation. These matters need to be taken up with the Installer / Contractor. Warranties do not cover workmanship and installation selection and site suitability.
- **For home studio or office environments, roller, or castor chairs, require appropriate surface protection. Heavy gauge plastic mats or similar are suitable.**
- **Both 2.5 & 4.5mm products are not suitable for use under heavy static loads, filling systems or associated fixed equipment. Avoid heavy rolling loads. Damage because of these occurrences would not be covered by warranty provisions.**
- Floor performance issues that may arise as a direct or indirect result of moisture ingress along with the incorrect use of heating and cooling systems will not be covered by warranty provisions. Note; Evaporative cooling systems need to be operated as per the manufacturers guidelines. Please consult with the home builder, system installer or manufacturer to better understand operating methods.
- All assessment and final approval for replacement or rectification work that may need to occur for faulty planks or floor installations must be formally approved by Preference Floors prior to any repair activity. Costs associated with any rectification or re-supply will only cover replacement flooring materials for amounts as determined in a formal notice of agreement between the supplier and reseller. Items such as temporary accommodation, loss of business profit, re-painting, external contractors for removal and re-fit will not be covered by warranty provisions. Some provisions for reasonable costs may be assessed on a case by case basis and will be administered as per the individuals rights as consumer laws dictate.
